# Generali Deutschland Holding AG

for being awarded a listing in the 2014

## CDP CLIMATE DISCLOSURE LEADERSHIP INDEX (CDLI)

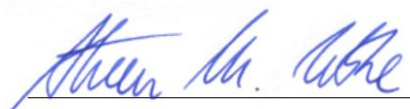

Germany, Austria and Switzerland (DACH)

by achieving a

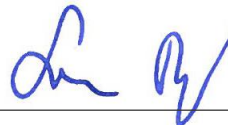

## CDP CLIMATE DISCLOSURE SCORE 100

The CDP Climate Disclosure Score assesses the completeness, quality and transparency of the 4,700+ company responses to CDP's annual climate change information request, on a scale of 0 to 100. In 2014, Generali Deutschland Holding AG qualified for the CDLI DACH, the index composed of the 10% best disclosing companies in the region. The average disclosure score in the DACH sample was 69. Your achievement reflects deep, long-term understanding of the impacts of climate-related risks and opportunities to your business together with broad transparency to stakeholders about emissions, management, strategies and other climate change related activities.
